

Morse S

Design by David Abad.

Reference: Morse S2-7-2

Render: Black brass / Alabaster

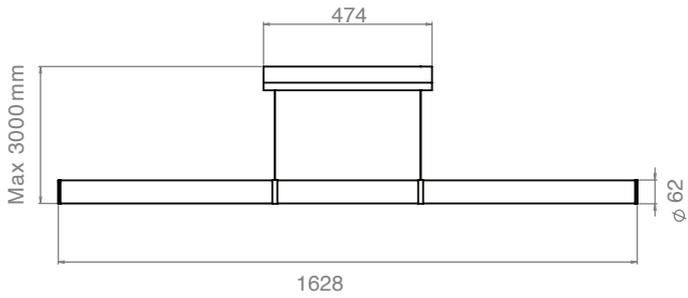

Decorative Arts Editions

A dialogue between light and materiality. Inspired by the universal language of Morse code, this modular luminaire combines the purity of alabaster with a minimalist design that transcends time. Each segment is a luminous stroke that can expand infinitely, creating an endless system adaptable to any space. The organic translucency of hand-carved alabaster casts a soft, ambient glow, while the black metal accents provide contrast and sophistication. Subtly suspended, the Morse S1 transforms any setting into a haven of serenity and timeless design.

Perfect for illuminating contemporary spaces, this piece not only lights up a room but also communicates an homage to art, functionality, and the natural beauty of noble materials.
